Keynote: The Journey of Service

For so many Leaders throughout the world, the idea of being of service starts young, or during a traumatic time. There are many reasons why some people become Leaders and spend their life teaching, learning, and being of service to all that they encounter in their lives. Being of service doesn't mean being famous, it doesn't mean being wealthy, it means holding others in respect and love. I'm sure you've known many, and maybe YOU fit this category, but let's take time to recognize a wonderful group of people, who happen to be members of a family who have chosen the life of Service. Be inspired, live your life of service!

Lets look at a few tools in order for you to improve yourself for the benefit of others. It's easy, it's fast and it will make a world of difference in the lives of those you touch.

Post-Convention, Tuesday: Group Cellular Cleansing

Cellular Cleansing neutralizes traumatic memories that have been stored in the tissues of the physical body throughout life. Patti's unique vision allows her to see into the workings of the body, similar to the way a live MRI does. For more information on the process visit Pattie's website:

Register: ***You may sign-up after your arrival at ORI or through Patti's website email.***

Patti Conklin - Georgia. Patti Conklin grew up with a unique ability to see how the vibration of words and emotions affect the physical body. Through this sight, she began to understand that manipulating the vibration of the particles that make up the body could release stored emotion and facilitate healing, and Conklin Method of Cellular Cleansing was born. After spending her youth learning and perfecting her healing abilities, she began to work with individuals with illnesses ranging from physical to mental, and even spiritual. Patti realized that while she can help those who have become ill, she could *teach* others how to shift their perception and thus prevent illness from occurring. Patti is an author and teaches around the world. www.PattiConklin.com
