

HEALING PROTOCOLS & HOW TO USE THEM©

STEP # 1 Before you Begin prepare yourself and the space:

- Create a sacred healing space : light a candle; ring a chime or bowl; clear yourself & the space. (Refer to J. Gehringer "An Apple a Day©")
 - Be in a dowsing mode: Alpha state, centered, shielded, focused with clear intent, free of non-beneficial energies/influences.
 - Ask May I; Can I; Should I to dowse on yourself or others. Do this even if the person gave verbal permission. Other factors may influence the dowsing. If the person is unable to give consent ask their higher self.
 - Raise your energy level to the vibration necessary for healing.
 - Raise the persons' energy level to the vibration necessary to accept healing.
 - Make sure that both you and the person are connected to Source.
-

STEP # 2 Healing Essentials:

- Request a Spirit Team to form and stay through the complete process. Request that they co-create harmonic resonance with the Divine Healer who dwells in every heart.
 - Request that changes be enacted in all aspects of the persons' total being (physical, etheric, mental, soul and spirit) in all lifetimes, dimensions, and realities.
 - Request that changes be enacted at a rate and time most appropriate and in the persons divine best interest.
 - If others are involved with healing, request that the Spirit Team allows no more energy to the person than is best for them. Create a holding area for the unused healing energy to come to the person when needed.
 - Request that this process continue for as long as necessary.
 - Ask that any and all requests are to be done only if the Spirit Team deems it most appropriate and in the persons' divine best interest.
 - Request that this process be infused with Divine Love & Light& the vibration of Health.
 - Bring in appropriate color, fragrance and sound vibrations. Seal with Divine Love & Light.

This protocol is a compilation of information from myself, many dowsers I have learned from, my clients & students and ultimately Source. Dowsing is an intuitive information gathering system & is not meant as a substitute for medical advice. It is against state laws to treat or diagnose a medical condition unless you are a licensed health care professional. This document or parts of it may not be used without written permission of the author, but may be used for personal use only.

STEP # 3 Areas of Concern: The list that follows are things that could be causing the problem. These concepts come from many sources, including ultimately, Source. They are not in any particular order.

- Dowse on a scale of -10 to+10 the level of effects each of these items has on the persons' total being (physical, etheric, mental, soul and spirit) in all lifetimes, dimensions, and realities.
- Write to the left of the item its strength, e.g., -10 or +5, etc. Do this for the entire list.
- Start on the items with the strongest effects that you noted, e.g., minus 10's, plus 9's, etc. A minus reading could indicate a deficiency in an area to correct whereas a high positive reading could indicate that the person is very strong in that area.
- For each item with strong effects noted, dowse the most appropriate energy change concept listed in STEP #4.
- Now go ahead and enact the changes.
- Repeat the process on other items until you dowse to do no more at this time.
- WHEN FINISHED: ask that the aura of the person be cleansed and purified ; then DETACH from the process and them.
