Since there is no better proof than hands-on practice, we will mainly practice efficient approaches to health challenges that you and the people around you may be experiencing. You'll learn the brain's role in creating and releasing sicknesses from the body and energy field; and its role in storing or not storing traumas and why. (Learn how to avoid brain imprints of specific traumas). We will explore: 1) various types of pendulums used in healing. 2) Learn how to perform quick and effective health assessments. 3) New Age and Ancient Egyptian approach to Balancing the Chakras and differences between them. 4) How to effectively deal with the pain issue.

❖ **David Dolezal**

How Our Past Affects Our Destiny

How does our past affect us now and into the future? In English we borrowed the Sanskrit word Karma to describe cause and effect. Karma can help us or hurt us. If we are in this life to learn spiritually, and we have had many lifetimes to learn, then why haven't we been given credit for accomplishing our lessons? Many times we have accomplished a lesson, but why do we keep repeating the same experience? This presentation identifies the nine energies of karma. The class will learn the protocol to clear themselves of non-beneficial karma.

David Dolezal - Oklahoma. *After three decades of engineering work, David changed his life and dove into a more rewarding and humanistic form of problem solving: the body's subtle energy field and its impediments to well-being. His protocols pinpoints blockages to physical, emotional and spiritual wellness to help uncover and relieve issues. David applies his engineering mind to ask questions and receive information intuitively. He has learned to use this ability to locate energies causing issues and empower people to clear those energies using simple Mindfulness techniques. David specializes in helping people clear stress. Stress can cause many physical and psychological issues including pain and allergies. The energies we can access are like a fountain of youth, once accessed and utilized they can make us feel younger, have more energy, and live in a more blissful state.*
